

An Experts Exchange Exclusive Report

Business Intelligence for: **vmware**
and Virtualization

For more than 20 years, Experts Exchange has been the community technology professionals turn to when they have questions to ask, problems to solve, or advice to share. Our users ask everything from software install how-tos to networking and security best practices, debugging code, and design questions. We have an arsenal of data providing insights into what our users want, need, and are interested in.

This Business Intelligence report showcases how Experts Exchange members use VMware products, how they explore and use virtualization in the workplace, and how the community provides access to VMware expert insight and problem-solving capabilities.
